The UrbanScrapMetal.com Black Card

- Global Currency Meets Global Card
- Making Digital Tangible
- Unparalleled Flexibility

Global Currency meets Global Card

- BitCoin is a decentralized, digital peer to peer that is growing at a pace that has attracted the attention of Forbes, Wall Street giants, and more.
- Growing at a fast pace as a choice for secure, private e-commerce
- Some of the companies accepting BitCoin: Wordpress, Wikipedia, and *many* more

Making Digital Tangible

- BitCoin, although global, has yet to become fully mainstream
- Let's unleash the power of BitCoin by bridging the gap between digital and physical
- The UrbanScrapMetal.com Black Card allows cardholders to convert BitCoin funds to a card usable in over 160 countries worldwide

Unparalleled Flexibility

- The security, portability and anonymity of BitCoin
- The flexibility and ease of carrying a physical card
- Give current BitCoin holders access to the entire marketplace
- Introduces new clients to the concept and freedom of BitCoin with the familiarity of a Visa debit card

Conclusion

BitCoin is on the rise.

Now is the time to step up to be early players in a new game, to be established as the trusted provider of BitCoin-to-Card services.
